THE GUEST BATHROOM: INTERLUDE IN INDIGO

FD: What was your vision for this space? I wanted to create a magical and bold space, where the visitors and viewers would feel as if they were swept away into an enchanted garden.

FD: Tell us about your design process. The starting piece was the beautiful indigo tub from Kohler. It was love at first sight and I had to incorporate it into the design. I am known for creating colourful and bold interiors, and this room wasn't going to be the exception. I used three wall coverings to design this room: the beautiful scene from de Gournay behind the vanity and shower, a custom grass cloth from Phillip Jeffries on the opposing walls, and a metallic raffia by Phillip Jeffries on the ceiling.

FD: Thoughts on the final product? I love layering rooms with color, pattern, and texture, and this is a perfect example of my craft.
